Company Profile

Stellapps is a dairy technology company that has built technology to monitor all aspects of milk production - right from milking cows, chilling the collected milk, providing storage, and distribution. The company has so far raised a little over \$18 million from investors such as Omnivore Ventures, Blume Ventures, Binny Bansal, Stride and 500 Startups.

The Economic Times 2019 list of Top 25 Startups in India featured Stellapps in the top innovator category in recognition of our efforts to transform the Indian dairy industry to enable productivity, quality and traceability through technology and innovation.
