

WE ARE CELEBRATING 9 YEARS OF DAIRY DIGITIZATION

It has been 9 years since we set out on the mission to impact the lives of Indian dairy farmers through technology. From our humble beginnings in 2011, we have come a long way to reach the 2 million farmers across 28000 villages in India. From farm solutions to fintech for farmers, our solutions aim to create a conducive ecosystem for farmers. 8 million litres of milk flows through our solutions every day. As we celebrate another year of success, we wish to express our gratitude to our customers and partners for their continued trust in us.

WE SALUTE OUR DIGITIZATION HEROES...

THANK YOU FOR THE CHEER

WE ASKED OUR TEAM ABOUT THEIR JOURNEY WITH US, HERE'S WHAT THEY SAID

In the third edition of Stellapps magazine, mooStories, our employees share their journey with Stellapps.
