

Stellapps wins SustainableAg Asia Challenge by Rabobank, Singapore

Stellapps was declared the winner at the SustainableAg Asia Challenge by Rabobank and Rabobank Foundation on Oct 10. The challenge sought to recognize startups working to create inclusivity of smallholder farmers, sustainable agriculture and data integrity. Stellapps was awarded the prize for our contribution to enhancing farmer income, enabling traceability & food safety.

Digitization for sustainability: Stellapps at Rabobank Advisory Board Meeting, Shanghai

Stellapps was a part of the Rabobank Asia's 18th Food & Agribusiness Advisory Board Meeting which was held at Shanghai, China on 31st of October, 2019. We had the pleasure of taking the conversations on the potential of digitization to impact smallholder dairy farmers and promote sustainable dairying at a global scale at the event.

Stellapps is a Regional Finalist at the MIT Inclusive Innovation Challenge Asia, Taiwan

Stellapps was acknowledged as a regional finalist at the prestigious MIT Inclusive Innovation Challenge, Asia for our efforts to enable access to technology to rural dairy farmers in remote villages of India. Mr. Umesh Prajapat represented Stellapps at the regional celebrations at Kaohsiung, Taiwan on Oct 5 in association with MIT Hong Kong Innovation Node.

Designing Dairy 2.0: Stellapps hosts IFCN Regional Workshop, Bengaluru

Stellapps played host to the 8th IFCN Regional Workshop which took place on 15th and 16th of October at Bengaluru. More than 100 leaders and experts from the Indian dairy sector contributed to the discussions on designing the future of Indian dairy and shared their vision on Dairy 2.0. As the pioneer in dairy digitization in India, it was a proud moment for Stellapps as technology was acknowledged as the future of dairy in the event.

Stellapps at Dairy Industry Expo, Pune

Stellapps demonstrated its digital solution at the Dairy India Expo 2019 which was held at Auto Cluster Exhibition Centre, Pune from 11th to 13th of October. The event witnessed a good turnout of milk processors, farmers and equipment manufacturers. We thank all those who visited our stall and expressed interest in the potential of our solutions.

Illustrating the impact of DeepTech on transforming agriculture: Stellapps CEO, Ranjith Mukundan at TechSparks 2019

Our CEO, Mr. Ranjith Mukundan spoke about the impact of deep tech on transforming the way milk traveled from the farmers to the customers during the Deep Tech panel along with Cisco, Qualcomm & Haptik at Techsparks 2019.

Thank you for joining us
